

ALMOST READY.

E. M. Angell, of the Chicago branch of the Mergenthaler Linotype Co., yesterday completed the installation of the linotype put in by the Kentuckian this week. It was placed on the second floor and a hole had to be cut in the floor and the machine hoisted by a derrick. It was a tedious process, but the work proceeded without mishap and the machine is now ready for use.

It is a Model 5 with all of the latest improvements and with it came necessary equipments to make the office better supplied for business than ever before. The Kentuckian now has half a dozen presses and its office is one of the most complete printing establishments in this section of the state. It is prepared to do all kinds of work with neatness and dispatch. Every day brings in an increased number of subscribers to the daily. A big majority of the country subscribers will take the daily in preference to the weekly and city list is growing by leaps and bounds. Even with the old subscribers divided into two lists, the daily bids fair to start out with more subscribers than the tri-weekly. It is going to find its way into many new homes where the day's earliest news will be appreciated.

We have fixed upon March 9 as the time to start, but this date may be advanced a few days, possibly to the 7th or 8th, if all goes well with the preparations. There are so many details, and so many changes to be made that time is necessary. It was necessary to secure a later telegraph service than 11 o'clock and this has been arranged. The office will keep open as late as is required to handle the service.

This will not be the first time the Kentuckian has published a daily. During the Spanish-American war it was issued daily for several months, resuming its old form when the war ended. This time it permanently enters the daily field.

The labor shortage in Hopkinsville is affecting every line of business.

March 1st is the last day to make out your income tax return, but the time has been extended a month.

A. B. Hopper is the new chief of Police at Dawson. He ought to be a good man to jump on crime.

Occasionally the Legislature is heard from. A bill reported in the Senate to consolidate 13 state offices and departments.

La Follette is hearing from his home folks. The Wisconsin State Senate, by a vote of 26 to 3, decided that he is not a patriot.

Arthur Davis, a dentist of Piqua, Ohio is back from a sojourn in Germany during which he says he worked on the Kaiser's teeth. He lost a great opportunity.

When 20 American volunteers were called for Monday for a desperate raid, the whole party volunteered and those selected had to be held back to keep them from trying to go on to Berlin.

The New York World's Washington correspondent says Senator James reply to Chamberlain was equal to Webster's reply to Hayne and that the Kentucky Senator is Presidential tender.

The Kentuckian has a large number of subscribers among the well-to-do colored farmers and almost without exception they are electing to take the daily instead of the weekly.

The Kentuckian has made it a rule for 33 years to give ministers of the gospel of all denominations and both races the paper at half price. In its long career, it has given many hundreds of dollars in this way to its preacher patrons and it is still going to follow the rule in the future by giving ministers a rate of \$1.50 by mail and \$3.00 when delivered by carrier. Some have already availed themselves of the offer. All others are privileged to do the same.

H. GARNETT

PRESIDENT

New Officers of the Pennyroyal Fair Have Been Elected.

NEXT FAIR AUGUST 27

R. H. McGaughey Another Farmer Is Elected Vice President.

At a meeting of the newly elected board of directors Monday evening, the following officers of the Pennyroyal Fair were elected for 1918:

President—Holland Garnett, of near Pembroke.

Vice President—R. H. McGaughey, of near Newstead.

Treasurer—Dr. T. W. Blakey.

Secretary—John W. Richards.

The dates for holding the fair this year were set for the last week in August, beginning on Tuesday, August 27, and continuing through the week, or for five days. This will make the fair run the month out exactly and will not overlap into September. This is a feature which will be appreciated by the business men.

VICE PRES. R. H. M'GAUGHEY.

The new executive officers are two of the county's most prominent and successful farmers. They have both been on the directory for several years, in fact ever since the fair was organized. No better selections could have been made.

Dr. Blakey, who succeeds the late Lee Ellis as Treasurer, is also one of the leading spirits of the big association.

Mr. Richards has filled the position of secretary for the last two years and has received a merited endorsement. The directors will meet again on March 11 to name the heads of the various departments and appoint committees.

CHICKEN THIEVES

Raiding Many Hen Roosts In The City.

Chicken thieves have been operating in many parts of the city recently and numerous raids on hen houses have been reported to the police, but no arrests have been made. Among those visited was Lewis A. Waller, who raises White Plymouth Rocks that have taken prizes wherever shown and are worth very high prices. The other night the watchman at the Mogul Wagon Works came upon a negro man with a heavy sack, which he dropped and made a get-away. Investigation showed that the sack contained nine of Mr. Waller's thoroughbreds. The watchman had a gun but didn't know what the negro dropped until he disappeared.

Bad Fracture of Hip.

Mrs. Delitha J. Hanby, of the Castlebury neighborhood, fell on the floor of her home this week, sustaining a fracture of the hip. She is 84 years old and the accident is regarded as very serious.

Gardners Win Out.

The Mayfield council has decided not to repeal its chicken ordinance.

The Huna seem to have Trotzsky on the trot.

BURIAL PLACE OF OUR FIRST SOLDIERS KILLED IN FRANCE

In a little cemetery just outside the ruined village of Bothelement in Lorraine rest the three first American soldiers to lose their lives facing the enemy. The boys, Corporal Gresham and Privates Enright and Hag, were killed during an engagement November 8, 1917. A monument will mark the spot where they are buried. This photograph shows a party of American newspaper correspondents at one of the graves.

CHRISTIAN CO. IS PATRIOTIC

Allotment Has Been Reached Enrollment Agents Work Completed.

The Council of Defense for this county, acting for the National Government, has enrolled one hundred shipyard volunteers for volunteer service in the shipyards of the United States.

It appears from information at hand that none of the adjoining counties have made any effort along this line. This is another bit of evidence that Christian county is keeping to the fore in patriotically supporting the government in the great war.

NEGRO SOLDIERS WOUND WHITE

Twenty-six Blacks in Camp Pike Guard House After Riot in Mess Hall.

Little Rock, Ark., Feb. 27.—Twenty-six negro soldiers of the 512th engineering battalion are in the guard house at Camp Pike awaiting court martial as a result of a riot in a mess hall at the camp. A white non-commissioned officer suffered a painful but not serious scalp wound.

BISHOP BECOMES CHAPLAIN

Bishop William P. Remington, who was rector of the St. Paul's church in Minneapolis for over years and is well known in religious circles in the North, is now serving as chaplain of a hospital unit at Fort McPherson, Ga. The photograph shows Bishop Remington in the uniform of the army.

STAMPER GETS JAIL AND FINE

For Alleged Malicious Assault On Marvin France.

CIRCUIT COURT IS BUSY Commonwealth Cases Occupying Attention of The Court.

The jury in the case of Walter Stamper, charged with malicious assault with intent to kill, returned a verdict of guilty Tuesday. Punishment was fixed at six months confinement in the county jail, in addition to a fine of \$400. It was charged that Stamper struck Marvin France in the back of the head with a rock at Lafayette one night last August, badly injuring him. He was thought at first the injury would be fatal, but France finally recovered after several weeks.

R. N. Rives was put on the grand jury Tuesday, replacing Walter Ezell excused.

Commonwealth vs. Berry Quisenberry, charged with assault and battery, acquitted.

Commonwealth vs. Anthony Martin charged with maintaining a common nuisance, fined \$50.00.

FOLLOWING THE FLAG.

Capt. Ruel B. Hanbery, whose tanker the Albert Watts, was torpedoed Nov. 28 and lost after reaching an Italian port, has reached Philadelphia as a passenger on another ship and writes his parents here that he is awaiting orders.

Neville and Carroll Blakemore, soldiers at Camp Shelby, have been at home several days on leave, with their parents, Mr. and Mrs. Clarence Blakemore. Their brother, Bert, was with the last contingent sent to Camp Taylor. Mr. Blakemore is probably the only father in town who has three sons serving their country, all as volunteers.

John Barr, a grandson of Mr. Hunter Wood, whose home is in Memphis, has successfully passed his examination for admission to the U. S. Marine Corps.

Mike Callis, a Greek candy merchant at Owensboro, formerly of this city, has gone to Camp Taylor as one of Daviess county's draft. He is a naturalized American and a patriotic citizen.

THREE GASSED BY THE HUNS

Nine Others Sickened By the Vandal Methods of War.

Three American soldiers were killed and nine badly "gassed" in two formidable gas attacks made by the Germans on the American positions in the Toul sector early Tuesday morning with projectors.

The enemy also heavily bombarded the American batteries with gas shells, but without effect.

On Monday J. J. Regency, of Wisconsin, was killed in action.

The men wounded were Private Aldebert Morey, Lewiston, Minn.; Private Hugh F. Gilmore, Louisville, Ky., all on Feb. 25, and John P. King, Springdale, Ark., Feb. 25.

BROUGHT BACK FOR BURIAL

Remains of Mrs. Miller, Who Died in Kansas, Interred Near Consolation.

The remains of Mrs. Penaa Miller, who died in Kansas last week, arrived in Crofton Monday and the interment took place in the family burying ground, in the Consolation neighborhood. The deceased was before her marriage a Miss Rogers and was reared in North Christian. After marriage to Mr. Miller she and her husband moved to Kansas. Mr. Miller died several years ago. Mrs. Miller was about 40 years old.

BRITISH PEERESS A NURSE

Lady Furness, one of the noted women of the British peerage, is serving as a nurse in the Red Cross behind the lines in France. Many of her, have given up personal comfort and the joys of social life to aid their efforts in their country's cause. Many are serving in the hospitals close to the firing line in France.

PETROGRAD THEIR GOAL

Pskov Changes Hands Several Times—Huns After Vast Ammunition Stores.

EXECUTIVES MOVE CAMP

The Fighting Units are Being Swiftly Formed, Bolshevik Message Declares.

Although the Russians have accepted Germany's proposals for peace, the Germans are continuing their inroads both into great and little Russia. In the north some opposition is being placed in the path of the invaders but evidently the measure has not yet been sufficient to stay the progress of the enemy.

Considerable fighting has taken place around the town of Pskov, which, according to latest advices, has changed hands several times. In Volhynia the town of Kolenkowitz has been captured after some fighting and, according to the Berlin official communication, hands of the bolsheviks in Ukraine have been put to flight by the Germans.

An official proclamation issued in Petrograd calls upon the people to rally to the cause of Russia if the bolshevik government is to be saved. A call also has been issued to the people of the capital to come out and aid in the digging of defensive trenches and the general arming of the capital.

Realizing the seriousness of the situation the American ambassador and his staff made preparations Monday to quit Petrograd with the Chinese and Japanese diplomats, who were arranging to depart. The ambassador informed the state department at Washington that the German army then was only eight hours' march from Petrograd.

The bolshevik headquarters have transferred from the Smolny institute in Petrograd to a military camp, according to an Exchange Telegraph dispatch from Petrograd dated Monday. At this camp, the dispatch reports, the workmen of the city are assembling en masse carrying red banners and fighting detachments are being formed continually.

NO CHANGES

R. E. Cooper President and C. E. Woodruff Manager of Telephone Co.

The annual meeting of the Christian-Todd Telephone Co.'s official board was held here Tuesday. Leland Hume and E. E. Bawel, of Nashville, and A. Moppin, of Atlanta, were out of town directors. R. E. Cooper, C. E. Woodruff and Hunter Wood were local men present. The following officers were re-elected:

R. E. Cooper, president; Leland Hume, vice president; A. Moppin, secretary-treasurer; C. J. Holloman, general auditor and secretary; F. Thomas, assistant auditor and secretary; C. E. Woodruff, general manager and assistant treasurer.

Chat About People

DORTCH—Nat F. Dortch, of Louisville, has been appointed to represent the New York Syndicate that will build a hotel and establish amusement enterprises at Dawson Springs on a large scale. The syndicate is erecting a mammoth hotel and will have a race track, automobile track, etc. The company owns 5,000 acres of land and has bought the three hotels now in Dawson and will tear them down to make room for the new hotel. Coleman du Pont and Theodore Troendle head the syndicate.

Chinese Earthquake.

News comes from the interior of China that 10,000 people have been killed in a series of earthquakes in Amoy and neighboring sections.

American guns of the latest type and the heaviest caliber are in service on the American sector in France and on the Italian front. It was announced by the War Department. The general belief had been that there were few heavy American guns in Europe.

A resolution denouncing the attitude of Senator La Follette was introduced in the Wisconsin State Senate. The resolution declared emphatically that the people of Wisconsin "always have stood and always will stand squarely behind the present war to a successful end."

President Wilson has signed an order authorizing the construction of a water-power dam at Muscle Shoals, Ala., as part of the \$50,000,000 project for a Government plant there for the fixation of atmospheric nitrogen for use in the manufacture of munitions and fertilizers.

Representatives of capital and labor began conferences at Washington Monday to reach an arrangement designed to prevent strikes and to assure maximum production of materials necessary for the American armies abroad. The committee organized and heard Secretary Wilson outline the purposes of the conferences.

The deaths of a Lieutenant and four cadets resulting from airplane accidents were reported to the War Department Monday by Gen. Pershing. The dead are: Lieut. Leland J. Hagadorn, Orleans, N. Y.; Cadets Clark B. Nichols, 1516 Locust street, Philadelphia; J. F. Stillman, 36 East Thirty-ninth street, New York City; Donald E. Carlton, Providence, R. I., and Arthur R. Wilson, 3909 Baring street, Philadelphia.

Speaking before the Reichstag today the Imperial German Chancellor, Count von Herting, made this declaration: "I can fundamentally agree with the four principles, which in President Wilson's view must be applied in a mutual exchange of views, and thus declare with President Wilson that a general peace can be discussed on such a basis. Only one reserve need be made in this connection: These principles must not only be proposed by the President of the United States. They must also actually be recognized by all States and peoples. But this goal has not yet been reached."

Boat crews from the New Foundland steamer Prospero, braving the breakers which are battering to pieces the wreck of the Red Cross liner Florizel on the ledges of Cape Race, today took off forty-four survivors, all who were left alive of the ship's company of 136. The death list tonight stood at ninety-two. Of the rescued, seventeen were passengers. Only two of the twelve women on board and none of the four children were saved. Capt. William J. Martin, of the Florizel, and Maj. Michael Sullivan, of the New Foundland Forestry Battalion, who was on his way to rejoin his command in Scotland, were among those rescued. Ralph Burnham, one of the Royal Corps on the lost steamer, was included among the survivors. The rescue was performed with great gallantry.

Would Change the Theme.
Doris' mamma was reading a story to her when Doris said: "O mamma, read the funnies until I get the frog out of my throat."

DECORATED BY HER KING

Nurse Isabel Magendie, Q. A. I. N. S. R., who went through the whole of the east African campaign and has recently returned home, wearing the Royal Red Cross medal which she received from King George of England.

Women's veils and the tapestries of private homes are to be utilized in the Holy Land for the manufacture of sandbags for the Turkish trenches, according to the Constantinople correspondent of the Geneva Tribune. The Turkish authorities in Palestine and Syria have informed the local officers of Beirut and other towns, the correspondent says, that 1,500,000 sandbags are required in the trenches at once for defensive purposes. Inasmuch as sacks and cotton cloths are lacking, "all silks and tapestries" in dwellings are being commandeered, and soldiers in Syria have been told by their superiors they must remove the veils from any woman whom they may encounter in the streets.

THE BIG TROUBLE.

"Do you have any trouble with your steam furnace?"
"Nothing, except getting coal for it."

SOUNDS PLAUSIBLE.

She—Why do they say a man "pines" for a woman?
He—I suppose because the pine is about the softest there is.

TREASURE TROVE.

A veritable treasure trove was unearthed the other day by a Marceline woman who runs a restaurant. When she was ransacking her desk she found \$52 in change and a check for \$6, all of which had been there since goodness knows when. The money had slipped unnoticed through a hole in the back of the desk and never had been raised.—Kansas City Times.

QUICK ACTION PROMISED.

He—I want you to help spend my salary.
She—Am I not doing that?
He—No, no; I mean for ever and ever.
She—It won't take me as long as that.

COMPARISON.

"Marriage is much like war."
"Trouble most of the time, I presume."
"No. It either makes or breaks a man."

LOOKING FORWARD.

"Has your gardening been of advantage to you?"
"It has. I've learned a lot of things that ought to enable me to raise something next year."

THE SPIRIT OF THE OCCASION.

"I was at a little stag party last night."
"Yes, I know it. I saw you staggering home."

DIMENSIONAL LIMITATIONS.

"I think it would be a good idea if we take this piano downstairs."
"No doubt it's a good idea, but I'm afraid we can't carry it out."

PAST EXPERIENCE.

"Do you know my tailor has turned lawyer?"
"Then, I suppose he will make a specialty of breeches of promise."

HIS OPINION.

Bill—Can't an elephant go as long as a camel without water?
Gill—From the odor, I should say longer.

CONSTIPATION

And Sour Stomach Caused This Lady Much Suffering. Black-Draught Relieved.

Meadowville, Ky.—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable. I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would gripe me and afterwards it seemed I was more constipated than before. I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape."

I cannot say too much for Black-Draught for it is the finest laxative one can use."

Thedford's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action, leaving no bad after-effects. It has won the praise of thousands of people who have used it. NC-135

Make Your Mind Master.

To make your life count you must begin now. The youth who applies himself has the best advantage. But it often happens that bright young folks have to play the fool for a few years to learn the value of opportunities. Some of them never get over it. They are the ones who know it all and resent advice from their betters. But anyone can rise if he wants to. Set the proper task and see that it's realized. Make your mind master and the result will be to your credit.

Cold Snap Specs' Frames.

Never leave glasses or spectacles with shell or celluloid frames near a window in cold weather, and never wear them out of doors when the temperature is low. For rims of this sort contract with cold much more than the glass contracts, so they are very likely to break.

FAVOR SELF-FEEDERS

Quick and Economical Plan for Finishing Market Hogs.

Corn in One Compartment and Tankage or Cottonseed Meal in Other Is Recommended by Expert of Mississippi Station.

(By I. W. CARPENTER, Mississippi Experiment Station.)

It is to the interest of farmers having hogs to be finished either for market or butchering this winter to get them ready in the quickest and most economical way, since the prices of feedstuffs are so high. This can best be done by putting the hogs on a self-feeder with corn in one compartment and either tankage or cottonseed meal in the other. A self-feeder is nothing more than a hopper, which allows the feed to come down as needed by the hogs, and at the same time prevents waste, as it is necessary for the feed already down to be eaten away before any more comes down. These feeders can be made on almost any farm out of scrap lumber, if necessary.

Self-feeders pay, even though there are only a few hogs to be fed. They have uniformly given better results than hand feeding. Hogs not only make larger daily gains, but the same amount of feed will make more pork. This evidently can be accounted for by the fact that the hog was allowed to eat at will, consequently never gorged itself, thus enabling it to digest its food more thoroughly.

For the greatest and most economical gains it is essential to have either tankage or cottonseed meal in addition to corn, as this gives the needed balanced ration. It will also harden pork faster than corn alone. As long as there is corn in the self-feeder there is no danger of the hogs eating enough cottonseed meal to injure them.

In addition to the feeds in the self-feeder, the hogs should be given plenty of fresh water and dry quarters to sleep in, as it is impossible for them to do their best in a filthy pen. Too, the best quality of pork will not be secured from hogs in filthy pens.

Unprofitable Apple Trees.

Unsprayed apple orchards are not the profitable ones. Owners of small orchards can co-operate with neighbors in spraying operations.

Eggs Classified as Prime.

Eggs anywhere between one and three weeks old, in cool weather, are classified in market as "prime."

REASONABLE DEMAND.

"Are you in favor of an eight-hour working day?"

"I don't go so far as that," replied Farmer Jacob. "If my boy Jake was to work three a day two days in succession I'd think he was doing pretty well."

HORRORS OF WAR.

Officer—That's a pretty awkward lot you've got now, sergeant.
Sorely Tried Sergeant Inspector—They are that, sir. It's the like o' them, sir, as brings 'ome to us what a horrible thing this war is, sir!—Passing Show.

JUST WAIT ON

"Will you tell your sister the young millionaire she met at the beach is here."
"She knows it. She says a patient waiter is no loser, and she saw you waiting on a table today."

THE RESEMBLANCE.

"That prima donna is like our cook."
"In what way?"
"She is always falling down in the aria."

HIS SURMISE.

"What do you read, my lord?"
"Words, words, words," replied Hamlet.
"Ah, you are perusing the Congressional Record?"

NOT EXACTLY.

"You treat these boys as if they were kittens."
"No, I don't, for then they would get a licking every day."

ON THE FUNNY SIDE

The inevitable.

"I lost my pocketbook yesterday."
"Much money in it?"
"Fifty cents and some car tickets."
"I wouldn't worry about that if I were you."
"I don't mind the loss at all, but when my husband finds it out he'll spend most of his time for years to come telling all our friends how careless I am with his money."—Detroit Free Press.

No Great Student.

"I must have a part for Tottie Flub-dub. In the last revue she used to say 'Hurrah for the prince!' Couldn't you write that into this play?"
"There is no prince in this play. We might have her say, 'Hurrah, boys; here comes the handsome captain!'"
"I don't think she could learn that long a part."—Louisville Courier-Journal.

How He Knew.

"What's that your daughter's playin' on the melodeon, Hiram?"
"Oh, that's 'Old Black Joe,' Zekiel."
"But it doesn't sound like it, Hiram."

"No, I know it don't, Zekiel."
"How do you know it's 'Old Black Joe,' then, Hiram?"
"'Cause it's the only piece she knows; that's how, Zekiel!"

Business Proposal.

"Do you love me?" asked the young man, boldly.
"Isn't this rather sudden, Mr. Higgins?" replied the sweet young thing.
"Can't you give me a week to consider my answer?"

"No, I can't. I have an option on another girl, and the option expires tomorrow!"

Man's Unselfishness.

Man is unselfish on a thoroughly reasonable basis. His unselfishness is a rational development in a being whose whole personality is built on association with others and on participation in the common life. He cannot disregard the demands of that common life without disregarding his own largest interests.—Exchange.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

Hall's Family Pills for constipation.

22 Million Families in the United States

IF EACH FAMILY saved one cup of wheat flour it would amount to 5,500,000 pounds, or more than 28,000 barrels. If this saving was made three times a week, it would amount to 858,000,000 pounds, or 4,377,000 barrels in a year.

You can do your share in effecting this saving and really help to win the war by omitting white bread from one meal today and baking in its place muffins or corn bread according to this recipe:

Corn Meal Muffins

1 cup corn meal
1 1/2 cups flour
1 1/2 teaspoons salt
4 teaspoons Royal Baking Powder
2 tablespoons sugar
No eggs
1 cup milk
2 tablespoons shortening

Sift dry ingredients together into bowl; add milk and melted shortening and beat well. Bake in greased muffin tins in hot oven about 20 minutes. Same batter may be baked as corn bread in greased shallow pan.

Our new Red, White and Blue booklet, "Best War Time Recipes," containing many other recipes for making delicious and wholesome wheat saving foods mailed free—address
ROYAL BAKING POWDER CO., DFFT. H., 135 William St., New York

FOOD WILL WIN THE WAR

Child Not Unlike Adult.

The child in its disposition is not unlike an adult. Normally, both are happy and contented as long as they are feeling well, and the healthier they are the more responsive is their disposition. But if the head is dull and the brain is sluggish and the muscles have a tired feeling from a poor digestion, then both the adult and the child become irritable and quick tempered, doing only those things which one wishes to do, unresponsive and discontented.

Cromwell's Last Words.

Of the great Oliver, who brought Charles I to the scaffold, Thomas Carlyle has written a notable book, and in the fine description of the death scene Cromwell's last words are recorded. When, being restless, he was offered something to drink, he said: "It is not my design to drink or sleep, but my design is to make what haste I can to be gone."

Elfin Miners.

All over Europe a popular belief prevails that elfin miners are constantly laboring in the bowels of the mountains, where they have accumulated enormous stores of precious metals. In Wales they are called "knockers." They make strange noises, and the tapping of their picks may often be heard in ore bodies not yet reached by the human workmen.

Almost Like Birds.

It is a little known fact that flying fish, encountered in the tropics, actually flap their wings the same as birds. It is commonly supposed that the fish merely volplane, sail, after getting a good start with rapid swimming. The flapping of their wings, however, is so easily seen that it can be detected with the naked eye. Also, flying fish are delicious for the table.

Prosperous but Lonesome.

"A tricky man in business," said Uncle Eben, "is mighty likely to wind up by findin' hisself prosperous but lonesome."

BILLY DOYLE.

I am leaving the scenes of my childhood.
And my Old Kentucky Home.
And the lowly thatched cottage in the wildwood
Where as a child I used to roam.

The vine-covered cottage sets well back
From the river that flows at its will,
Far from the din and the bustle
The noise and hurry of Hopkinsville.

I've trod the paths of old Christian
I've tilled her fertile soil
But when I sail across the seas
I'll be as true to her as Billy Doyle.

I've enlisted in this great world-war,
From my peaceful Kentucky home
I'm a Christian county boy, please
Give me God speed as I roam.

I am now training at Camp Shelby,
And in many things I have grown wiser
To get 'n trim for trench warfare
And to go gunning for the Kaiser.

With a vessel moored at the landing
Soon boys we'll sail for another beach,
Oh God; wilt thou our guidance be,
That in safety our goal we may reach.

That no cruel torpedo may sink us,
Before we reach the other shore,
Then we will be a band of brothers
And give them what we have in store.

Fight Gerns, and Huns and Kaiser
And all the blood-thirsty crew
We must win this fight for liberty—
As our God will help us to do.
M. W.

Self-Filler Elevators.

The small daughter was taken to the hospital to see her great-grandfather, who was ill, and when the party got to the corridor she exclaimed: "O goody, they have those elevators that are self-fillers."

Gov. Timely Warning.

Vivian was playing in the lumber shed when her mother happened to see her. "Vivian," her mother said, "you mustn't play on that lumber; you are liable to get hurt." Vivian obeyed and was soon interested in something else until Billy came out. He, like boys, had to climb up to the top of the lumber. Vivian said: "Billy, don't climb up on that lumber 'cause if you do you'll be wearin' crutches."

Varieties of Mistletoe.

There are more varieties of mistletoe growing about the world than could be named in a column of newspaper print, but the commonest in America is that which the botanist, Nuttall, named after the Greek fashion, "tree thief," or phoradendron.

Value of Concentration.

Concentration is the most desirable of mental faculties. It is the power of paying attention to the thing and person in hand. It is an investment that yields large dividends, including that of fascination.

A Cheerful Liar.

He's a cheerful liar, even when the thermometer goes to "steep below zero. Recently, on the coldest morning of the year, he came into the office mopping the perspiration off his brow.

"What's the matter, Jim?" asked his office mates. "Been working with your furnace?"
"Nix," said Jim. "I've been chasing robins from cherry trees and driving the sparrows from my strawberry patch."

Then somebody called attention to white spots on his nose, cheeks and ears, and when the frost had been rubbed out of them, the telephone bell rang. A wifely voice rang for Jim, saying:
"Can you come home for a few hours? The winter pipes have frozen and burst, and I'm afraid the house will be flooded, and it is so cold the children are crying."

Jim stopped his "camouflaging" and didn't pretend to wipe any more sweat from his face.

Can't Resist Odor of Onions.

The inquisitive subscriber of Wharton wants to know if we are "temptation-proof." We can pass a hock sign and turn up a successful sniffer at a julep, but there's a little restaurant on Travis street that makes us take the other side because of the almost irresistible odor of fried onions that pours out the front door all the time.—Houston Post.

DR. BEAZLEY

---SPECIALIST---

Eye, Ear, Nose and Throat

What We Believe.

If we all acted upon what we all believe, what a different world this would be. Everyone admits that it is more blessed to give than to receive. Yet instead of seeking happiness by giving of our best to those about us, we sit waiting for it to be brought to us, through the kindness of others. We are like those who are learning to swim and though they know the water will bear them up if they follow directions, cannot bring themselves to let go. It is safe to trust to the truths that all believe, but so few act upon.—Girl's Companion.

Exciting.

Johnny was at the concert and he was badly bored. His mother was uneasy, for Johnny was disturbing others, but when a girl began to sing "The Minstrel Boy" and reached the line "His father's sword he girded on," Johnny was alive with excitement.
"You like this, Johnny?" said his mother. "It is—" "Be quiet, mother, do," said Johnny impatiently. "I want to see what happens to him when his father gets home."

March American Magazine

Everyone interested in the war, every father and mother who has a boy in the service, will be grateful for the message of cheer that is given in the March American Magazine by Surgeon-General Gorgas and private Peat. Surgeon-General Gorgas tells in an interview what the chances are to get hurt or killed in this war, and his facts are indeed cheering. Private Peat, the famous soldier-lecturer, tells in a wonderful article "Why We Came Out Of Hell." His story is inspiring and thrilling.

The lecture of Frederick W. Taylor, the father of Scientific Management, and the man whose work on steel alone has been worth between \$50,000,000 and \$100,000,000 a year to country, is printed for the first time in this issue. It is called "Not for the Genius—But for the average man."

"How I Cured Myself of Being Too Sensitive" is the story of a man who almost ruined his life by having a sensitive nature; "Why I Believe in Deciding Things Quickly" is by Al H. Woods, the theatrical manager; "Ripley's Recipe" is an article no E. P. Ripley, the famous railroad president; "The Joy of the Job" is an inspiring article by Edna Ferber about how she works and how she loves to write; and "When My Boy Comes" is an anonymous article by a father who wants to enlist but who is held back by the approaching birth of an heir.

The fiction this month contains stories by William Dudley Pelley, Holworthy Hall, Bruce Barton, Bertha Rich, and other well-known writers. The interesting People is fully up to its usually high standard, and the Family Money and contest results hold many things of interest and worth.

Paducah Boy Killed.

Wm. H. Scott, a gunner in the field artillery, a Paducah boy 21 years old, was killed in France Feb. 20. He enlisted April 12, 1917.

Mr. King's Find.

Thos. A. King bought an old clock at the recent sale of Thos. Wood, the eccentric and miserly farmer who died near Julian. The sum of \$2,000 had been found in an old book and to have a little fun, Mr. King placed an old \$10 bill in the clock and proceeded to "find" it after taking it home. The sum of money "found" in the clock grew as the story flew until it had reached \$6,000 this week when Mr. King found it necessary to admit his little joke.

Will Undergo Operation.

Mrs. Ed H. Reynolds, of Julien, was brought to the Jennie Stuart hospital yesterday, where she will undergo an operation today. Dr. Saunders, of Nashville, will perform the operation.

Fine bunch of Jersey milch stock will be sold here next Monday by Atkins Brothers.

FAIRVIEW NOTES

Mr. Douglas Gregory left Monday to visit his brother in Arkansas.

Mr. Robert Arnold is spending a few days with his parents in Lewisburg.

Mr. J. F. Barnett, whom we reported last week as being very sick, is no better at this writing.

Mr. and Mrs. Ethel Keeling are rejoicing over the arrival of a fine girl, which arrived the 20th inst.

Mr. J. H. Reese, of the W. S. Hospital, spent Sunday here with relatives.

Mr. and Mrs. J. W. Carroll and Mrs. Mollie Shanklin spent Sunday with the family of J. F. Barnett.

Miss Elizabeth Hurt has returned home after a few days visit with Mrs. Wm. Layton, of Hopkinsville.

Mr. Marion Layne, age 79, died at his home south of town Monday night of a complication of diseases. Interment took place Wednesday at 11 o'clock in Pembroke cemetery.

Franklin Kemp, one of our soldier boys, is at home from Camp Shelby, for two weeks visit.

PANSY.

Mr. Gregston Hurt.

Rev. C. S. Gregston, a well known Baptist preacher, was seriously hurt in an automobile accident in Paducah a week ago.

GERMAN NOBLES NOT KILLED

Members of Royal Family Remain Far Enough Away to Avoid Danger of Enemy Shells.

Germany has been engaged in war for three years and up to the present time not a "bloody" German has lost his life. In the list of killed and wounded there has not appeared the name of a Prussian or German prince, nor even a member of the nobility. If they are around the fighting line at all, they are in a deep cellar with a floor covered with fine carpet, comments the Des Moines Capital.

The emperor of Germany has six sons, and not one of them has received a scratch. One or two of them have been married since the war began, and the crown prince, who was supposed to command at Verdun, has had another prince born to him. The German autocracy is not going hungry. None of its members is carrying a bread ticket. With them everything goes on as usual. It was charged in the European newspapers a few weeks ago that a carload or two of beautiful singers were sent to Verdun on special trains in order to dance and sing and cause the crown prince to forget his troubles, while he is more than twenty-five miles from any cannon.

There may be mourning in every household in Germany. There is mourning in every household of the common people. But the emperor and the royal family generally have no personal occasion for shedding a tear.

AS THEY GRAFT IN BAGDAD

Taxgatherer Appropriates 36,000 of the 40,000 Pounds Forced From People for Bridge Fund.

Canon Parfit of Jerusalem, who described himself as "Vicar of Mesopotamia and Rural Dean of the Garden of Eden," recently told a few Eastern tales in London.

He said that when he first saw his "charge" the scenery did not impress him. The people were poverty-stricken and begged for "bakshesh," the children were "brilliantly" clad in olive oil and the sweetest of smiles.

A soldier, referring to scorpions and mosquitoes, said: "Everything in the garden's lovely (I don't think)! It wouldn't take a flaming sword to drive me out of it!"

At Bagdad, the pontoon bridge having been washed away, the sultan determined to build a new one, so he set about raising the money. The people were whipped and blackmailed into parting with £40,000. The bridge cost £4,000, the taxgatherer pocketed the rest.

COTTON GINNED IN 1917.

The number of bales of cotton ginned in the United States from the growth of 1917 prior to December 13, according to figures compiled by the United States bureau of census, was 10,142,858, counting round as half bales and excluding linters. Prior to the corresponding date in 1916 the number was 10,838,790 and in 1915 it was 10,306,309. These statistics include 180,252 round bales for 1917, 184,385 for 1916, and 100,925 for 1915. The number of sea-island bales included is 83,352 for 1917, 110,163 for 1916, and 84,110 for 1915. The distribution of sea island for 1917 by states is: Florida, 35,177; Georgia, 43,101, and South Carolina, 5,071. The corrected statistics of the quantity of cotton ginned this season prior to December 1 are 2,716,098 bales.

COVETED CALORIES.

It was at a Hoover luncheon that a number of friends were reading the menu. "Oh, I don't like this," said one of them. "Only nine hundred and fifty calories. I want a meal that contains a thousand calories." There was silence for a moment while the other three at the table moved their lips and tapped with their pencils, then one of them exclaimed: "Why, it is a thousand calories. You did not count right," which after an interval the first speaker acknowledged, and quite satisfied began eating the peanut loaf.

THE GREAT SIN.

Grace had just been told. "Oh, dear," said the little girl who had been brought up under the shadow of the Bible.

"What's the matter, darling?" asked her mother.

"I ate a grape that wasn't blessed," was the response of the little child.

PUBLIC ROADS

DRAG PREPARES GOOD ROADS

Length and Position of Hitch, and Position of Driver Are of Much Importance.

(By H. L. THOMPSON, Oklahoma Experiment Station, Stillwater.)

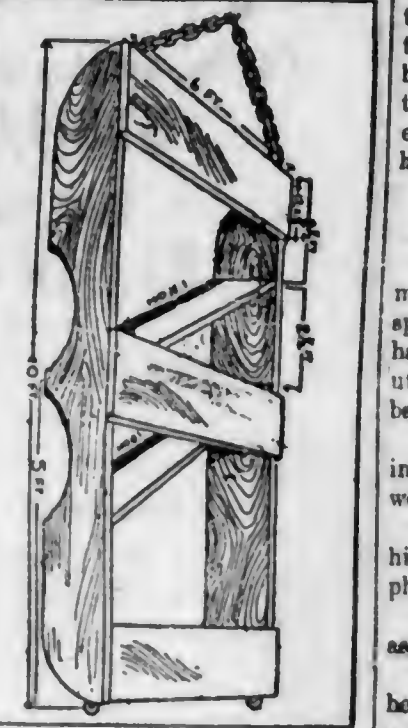

The successful handling of the drag on the road depends on two principles. These are the length and position of the hitch, and the position of the driver on the drag.

For ordinary work the clevis should be fastened far enough on the chain toward the ditch end of the blade to force the unloaded drag to follow the team at about an angle of 45 degrees. This will cause the earth to move smoothly along the face of the drag and will make the draft light on the team, provided the driver rides in the line of draft. If small weeds are to be cut, or if the furrow of earth in the ditch is to be moved, the hitch should be attached rather close on the chain to the ditch end of the drag. This will cause the drag to move nearly ditch-end foremost. The driver should put his weight on the extreme forward end of the front blade, which will make the drag swing back to the proper angle and make the blade plow.

For such work the team should be driven slowly and carefully to keep the drag from dipping forward. If a wet spot is met, the driver should shift his weight backward so as not to dig too deeply. If the blade becomes clogged with straw or weeds it can be made to clean itself as the driver shifts his weight as far as possible from the ditch end of the blade. If there is a low place or a mudhole to be filled the drag can be made to drop its load of earth if the driver shifts his weight quickly from the ditch end.

The distance from the drag at which the team is hitched affects the depth of cutting. A long hitch causes the blade to cut deeper and is used often when a rough road is to be smoothed up. Shortening the chain seems to lift the furrow blade from the ground and makes lighter cutting when doing light smoothing work.

For a new road with bumps and holes the three-blade steel drag is excellent, as it carries considerable earth and will not drop into the ruts or holes as badly as a two-blade drag. However, it usually requires four horses. The team should ride the whole distance, going up one wheel track and

Read Drag Is Not Costly.

back the other. It is a mistake to try to improve too wide a strip at one time. The best work can be done by the drag when the soil is moist, but not sticky, so the earth will move freely along the face of the blades. If the roadway is very badly rutted it may be well to drag it when the earth is wet. This is particularly true just before a spell of cold weather in winter when it is possible to have a roadway to freeze smooth.

Clay hills after considerable dragging frequently become too high in the center. This can be corrected by dragging the earth away from the center once and toward the center twice. The road drag is only good in clay or similar soils, as its effectiveness depends on the smearing action which it has and by means of which it can make a water-tight coat. The sand road will be injured by crowding it toward the center and dragging because the sand road needs all the moisture it can hold, and a crown will drain this moisture away.

Follow Test Directions.

One reason why people do not get better results from testing is that they do not follow directions. They try to make a short cut to save time, but sacrifice thereby accuracy in the test.

Call for Dairy Cattle.

The call for dairy cattle is more money than the demand for beef cattle.

Hog Weather.

A hog doesn't mind cold weather, if his pen is dry and sunny.

SHARK ARE QUITE PLentiful

Steaks Promise to Be Ample to Supply Demand and Price Should Be Within Reach of All.

Harry Goukler, has written President Leeds of the Atlantic City chamber of commerce, to the effect that when the Hoover propaganda has created a market for shark steaks as a substitute for meat, fishermen will be in a position to provide a virtually unlimited quantity of this latest addition to America's emergency food supply.

"The ocean is literally full of this kind of meat and it can be marketed to sell at a fair profit at from four to six cents a pound," declared Goukler in his letter. "The kind of shark which the federal bureau of fisheries is recommending to the public for use as food is not the large sharks now being used to a considerable extent to replenish the leather market, but small codfish sharks weighing from eight to ten pounds, which follow the cod in their movements along the coast. Their flesh is very pleasant.

"They are very plentiful along the coast when the codfish are running. During the cod season last winter fishermen pulled as high as 6,000 to 7,000 pounds of them a day from their fishing gear and threw them back into the ocean, because there was no market for them."

MEASURING DENSITY OF SNOW

Gauge Its "Specific Lightness" by Millimeters in Height That Produce One Millimeter Water.

The density of snow varies greatly, and by gauging its "specific lightness" by the number of millimeters in height that will produce one millimeter of water, M. Mongin, the French meteorologist, states that he finds the range to be from 200 to 1.3.

The snowfall on mountains is estimated in a number of ways. One method is to measure the height accumulated on a board one meter square supported one meter above the ground and then sliding it into a zinc tank for determining the water it makes on melting. Another type of instrument is a tube which is pushed down through the snow, then closed at the bottom by a shovel to retain the contents of the tube on withdrawal. In remote places visited only at considerable intervals the snow is collected in a tank, only the snow water for a stated period being measured. Vaseline oil in the tank covers the water, preventing evaporation, and calcium chloride hastens the melting of the snow.

WOULD NOT STAY DEAD

Having sent Tommy out to play, mother anticipated having a little spare time for herself. However, he had scarcely been out fifteen minutes when he indignantly pounced back in again.

"What brings you back so soon?" inquired mother. "I thought you were out playing with Billy."

"I was, but I'll never play with him again as long as I live," emphatically declared Tommy.

"What did he do?" anxiously asked mother.

"It's not what he did do, but what he didn't do. We played war, he was a German, and I killed him, and he admitted it, and now he won't stay dead."

SAFETY IN THE FORESTS.

Mrs. Flatbush—"Does your husband believe in the protection of our forests?" Mrs. Bensonhurst—"Does he? Why, say, if ever we had another war over here that would be the first place he'd nuke for!"—Yonkers Statesman.

IMITATION LUXURIES.

"Does the idea of war bread alarm you?" "Not at all. But I come from a section of the country where people insist on having pie. And I must admit that the idea of war pie is a little disconcerting."

UNSTABILITY.

"Don't you find geography difficult?"

"We don't study geography now," replied the boy. "Teacher says we might as well hold off for awhile and wait for the map to settle."

THE CHANGE.

"How's your coal bin?" "Say. It's queer about that. A little pile a few years ago that used to hide in the corner and remind me to order more is considered a full bin nowadays."

Colors of Sardines.

The fresh sardine is a beautiful little fish. The scales on its back are an iridescent blue-green, the exact tint which the sea so often takes, white beneath the scales there shows up the most wonderful pearly blue. There are bars on its back and sides when it first comes out of the water like those on the mackerel, but they seem to fade and disappear the moment it is exposed to the air. The rest of its body is pure silver.

Persian and African Donkeys.

Two species of the Caucasian donkey, the one from Persia, the other from Africa, says a nature student. Persia is also responsible for the proud mountaineers' fondness for chicken; our European ancestors got their roosters at some time during the historic period. Finally the famous Caucasus sheep took one day their departure from the broad plains situated between Persia and the Caspian sea.

CASTORIA

THE THRICE-A-WEEK

EDITION OF THE

NEW YORK WORLD

IN 1917

Practically a Daily at the price of a Weekly. No other newspaper in the world gives so much at so low a price.

The value and need of a newspaper in the household was never greater than at the present time. We have been forced to enter the great world war, and a large army of ours is already in France. You will want to have all the news from our troops on European battle-fields, and 1918 promises to be the most momentous year in the history of the universe.

No other newspaper at so small a price will furnish such prompt and accurate news of these world-shaking events. It is not necessary to say more.

THE THRICE-A-WEEK WORLD'S regular subscription price is \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and the

HOPKINSVILLE KENTUCKIAN

(Tri-weekly)

together for one year for \$2.65.

The regular subscription price of the two papers is \$3.00.

How Does a Soldier Feel in a Life-and-Death Crisis?

He was caught—like a rat in a trap—with only one chance in a million of coming out alive. He thought of—What does a soldier think of in a life-and-death crisis? How does he feel? What does he do? What is the millionth chance that he takes to escape? While trembling and hot from the experiences they have gone through, over two hundred men—almen, trench raiders, submarine commanders, grenade throwers—have told what they saw, heard and felt. To read these stories of personal adventure is to get an entirely new viewpoint of the war.

A Close-Up of the War

Newspapers and magazines treat the war along broad, general lines—they speak of nations and armies. But these stories tell you about the most daring, audacious and heroic deeds of MEN—individuals. They tell of exploits which even now you think never could happen. No professional author in the history of literature could tell such stories, for no man's imagination could think them up. Yet each of these stories is true—and so startling that the mind simply stands aghast at wonder. They would thrill a man with blood as cold as an iced.

"True Adventures of the Great War"

6 Volumes Free!

The Review of Reviews has collected these two hundred and more stories in six handsome volumes, containing altogether 1,600 pages, profusely illustrated. Every one of them is told in the words of the person who is the hero or heroine of the exploit. And now for a limited time, you can secure these six volumes free, with a two-year subscription to the Review of Reviews.

Now, and during these most fearful years, as never before, every intelligent American will need the Review of Reviews. The world is on the verge, it is in the throes of social, industrial and political changes that are momentous. One cannot form opinions on these revolutionary events, nor can he understand the real war situation, unless the facts, all the facts, are known. It is quite a patriotic duty in these critical days of trial for every citizen to know comprehensively what is happening in the world around him.

Send No Money

The subscription to Review of Reviews is offered at the regular price. The six volumes described above will be given in addition, absolutely free. So that no one may get in the dark, the books will be sent first by mail, and the subscription will be entered when they do not come up to expectation. They may be returned within five days, and the subscription cancelled. Only the first edition of this set will be so offered. The Review of Reviews is a weekly magazine, published by the Review of Reviews, Inc., 110 West 40th Street, New York City. It is the only magazine of its kind, and is the most authoritative and comprehensive source of information on the war and the world.

Old Familiar Discovery.

Every now and then there comes a substitute for gasoline, simply filling the place of the old discoveries of perpetual motion.—New York Sun.

Violets are natives to nearly all lands and thrive very generally everywhere, the greater number in the shade, but some in the sun.

RAISE MORE POULTRY

Our meat supply is short and more poultry will help solve the problem. More poultry means more eggs and more eggs and poultry meat means a greater food supply. Poultry can be raised at lower cost and brought to maturity quicker than any other kind of live stock.

On Farms and in Back Yards

HOUSE the flock comfortably; keep houses dry and well ventilated, allowing plenty of fresh air and sunshine.

Remodel the old house—stop cracks and eliminate drafts.

Give hens a good straw litter to scratch in during the winter months.

EARLY hatched pullets produce more winter eggs and return the greatest profits. Early hatched chicks have the advantage of a longer and better growing season.

Hot weather retards the growth of young chicks.

NEVER allow the mother hen to range with the young chicks until they are at least two weeks old.

Enormous numbers of young chicks are lost each year by allowing them to run in the wet grass during their early life.

SHADE and range for chickens will give the best results. Hot sun retards growth. There should be trees, corn, sunflowers, etc., on the range to provide shade during the hot summer months.

Chickens on range pick up much of their food.

ELIMINATE the male bird at end of hatching season.

Fifteen million dollars is lost each year by allowing the rooster to run with hens during the summer months. Produce the infertile egg. Dispose of the male bird not later than June 1. Market a better quality of egg.

GREEN feed is excellent for poultry and can be substituted for a considerable amount of grain ration. Grow oats, vetch, clover, etc., for summer use; cabbage and mangel beets for winter. Store cabbage and beets in a dry room, or in a pit and cover with straw and earth.

GREATEST returns are secured by feeding sour milk or buttermilk to young and old birds. Results in greater gains, and require less grain. Produces more eggs. Lasts longer. Makes a home market for by-products.

SAVE money during April, May, for winter use by preserving in water. Mix 9 quarts of water, boiled and cooled, with 1 quart of waterglass. Will preserve 15 dozen eggs. Place the solution in a 5-gallon jar. Store in cool place for winter use.

More Eggs and Poultry Will Save Beef and Pork

For published information and individual advice on poultry raising write to your County Agent, State Agricultural College, or to the U. S. Department of Agriculture, Bureau of Animal Industry WASHINGTON, D. C.

GRAIN RATION FOR LAMBS

Young Animal Just Beginning to Eat
Should Be Given Corn, Oats, Oil
Meal and Bran.

A good grain ration for lambs just beginning to eat is ground corn, 1 part; crushed oats, 1 part; linseed oil meal, 1 part; and wheat bran, 2 parts. Wheat bran is very essential in this ration, and the shepherd should always see that it is present. A grain ration consisting of 2 pounds of wheat bran, 1 pound of oats (crushed oats being preferred), 1 pound of finely ground cornmeal, and one-half pound of oil meal has proved to be an excellent grain ration for young lambs. It has also been found that a grain mixture of oil meal and cornmeal has given better results than a mixture of cottonseed meal and cornmeal.

Easily Understood.

The store that is different always does better than the store that is different.—Louisville Courier Journal.

Every Woman Wants

Paxtine
ANTISEPTIC POWDER

ROUGHAGE FOR IDLE HORSES

Expert of North Dakota Station
Makes Suggestions on Feeding
During Winter Season.

Mr. Peters of the North Dakota experiment station makes the following suggestions on wintering the horse. The work horse that has been properly cared for and fed in the summer can be wintered, when not at work, on such roughage as oats straw, good hay and corn fodder. In addition to the above it may be necessary to give four to five pounds of grain daily per animal in order to maintain them in good flesh. Idle horses should be turned out for exercise every day in winter except on the few stormy winter days that occur during this season.

As Balzac Depleted Man.

Balzac's object in writing the numerous volumes that succeeded each other with an astounding regularity was to depict man as he presented himself to his view, and, in fact, in his works he brings to life again the history of the generation to which he belongs, describing his contemporaries, in particular the humble bourgeois of the middle class, with a most striking exactness.

Limestone Continues in Favor.

Pulverized limestone continues to be in favor as a soil sweetener or fertilizer, according to the United States geological survey. Since the figures of production were first compiled in 1911 the industry has steadily increased, and the output for 1916 of 1,000,000 short tons, valued at \$1,140,000, represents a gain of 512 per cent in quantity and 400 per cent in value for the six years.

The Indian Cashew Tree.

Besides the nuts used in confectionery the Indian cashew tree yields an insect-repelling gum, a juice that makes indelible ink, and three kinds of oil, one edible, the others used to tan fishing nets and preserve wood.

THE KENTUCKIAN

WILL BE ISSUED AS A

MORNING DAILY

An unavoidable delay has been caused in getting the machinery necessary, BUT IT IS NOW HERE and will be installed next week. We can now state definitely when the daily will start. It will contain the International News service, covering the world by telegraph and cable. It will bring the first news in Hopkinsville and reach its readers on the day of publication. Only \$3 a year or 10¢ a week in the city delivered.

This Corn Will Peel Right Off!

"Geta-It" Makes Corns Come Off The "Banana-Peel" Way!

Why have to hop on the floor, squeeze yourself up like the latter "2", and with bulging eyes draw your face up into a wrinkly knot while you rouge and pull at the "quick" of a tender corn? That's

2 or 3 Drops Applied in a Few Seconds—There's no Fussing or Cutting—'Geta-It' Always Works!

the old, savage way. "Geta-It" is the modern, painless, simple way. Lean over and put two drops of "Geta-It" on the corn, put your stocking and shoe right on again, and forget the corn. Pain is eased.

"Geta-It" has revolutionized the treatment of corns. It never irritates the true flesh. You'll stop limping on the side of your shoe, and do away with greasy salves, bandaging, bandages, thick plasters and painful methods. Use "Geta-It". It's common sense.

"Geta-It" is sold by all druggists (you need pay no more than 25 cents), or it will be sent direct by E. Lawrence & Co., Chicago, Ill.

Sold in Hopkinsville and recommended as the word's best corn remedy by L. L. Elgin.

Bright Boy's Death.

James Chilton, aged seven years, a son of Mr. and Mrs. Frank Chilton, died Monday night, following an operation. Funeral services were held yesterday morning at the family home on North Main street and the interment was in Riverside Cemetery.

If you have a pair of opera glasses, the navy wants to borrow them. Many more are needed than it is possible to buy. Send them to the Navy Department and you will perform a patriotic service. Your glasses may be the ones to discover a lurking periscope in time to save a ship.

AGED CITIZEN OF FAIRVIEW

Marion Layne, Retired Farmer and Confederate Veteran Passes Away.

Marion Layne, a prominent citizen of the Fairview neighborhood, died Monday night. Mr. Layne was about 80 years old. Some time ago he suffered a paralytic stroke, from which he never recovered. He was a confederate veteran and a man universally popular. One son, Jettie Layne, survives. The interment took place in the cemetery at Pembroke.

California Cadet Killed.

Memphis, Tenn., Feb. 27.—Wm. J. Heissinger, of Buena Vista, Cal., a cadet, was killed and Wm. C. Story, of Freeport, N. Y., also a cadet, probably was fatally injured in the collision of airplanes in which the men were making flights at Park Field, near Memphis, late to-day. The machine fell about 1,000 feet.

Victim of Pneumonia.

Mrs. Mary Jane Newcomb, wife of Mr. Daniel Newcomb, who resides in the extreme northern part of the county, died last Friday of pneumonia, after an illness of about two weeks. She was in her 60th year. Interment was made in the Newcomb burying ground Saturday.

Three Boys Failed.

Vernon Howard writes from Camp Taylor that three of the boys who left Saturday failed to pass physical examinations. Two were Roy Jordan and Jas. H. McGowan. He did not mention the other one or whether any of them would be sent home. The boys had received a first "shot" and were nursing sore arms.

Several Degrees Worse.

Hank—A quitter is one who quits, but a slacker is one who doesn't begin. —Buffalo Times.

"Extra Early Tobacco"

Two Crops In One Year.

What I mean by this, you can make two crops of tobacco in one year. It was tested last year. This tobacco has a broad leaf and is the heaviest bodied tobacco that has ever been raised in this State. I have been asked where I got the seed. A seed man from Missouri furnished me the seed. I raised a quantity of seed for him. This seed was not raised for this State. The farmers who saw this tobacco growing asked Mr. Davis to leave these early seed in this county. Mr. Davis left 25 per cent of them here. If you want to teach or go to school, don't miss the extra early tobacco. This tobacco stood on the hill 69 days; was set June 5, cut 14th of August. This fact was witnessed by a number of good farmers. It will pay any farmer who is depending on tobacco for a living, to write or phone, walk or ride to Hickory, Ky., to see this extra early, as it hangs in the barn, and the land where it grew, and you would want two boxes instead of one.

I want each man who raises this tobacco to turn out 50 heads each, and be careful to not let it get mixed; your neighbor will want seed next year.

If you want any information concerning this tobacco, write

LUCIEN CARTER,

Route 1, HICKORY, KY.

This seed is worth \$1.00 a box. Holding a heaping tablespoonful enough for 100 yards.

The Great Belle Isle DUROC BRED SOW SALE

—AT—
HOPKINSVILLE, KENTUCKY, Monday, March 4, 1918.

50 head of bred sows and 3 boars, that are herd headers. This offering is sired by the greatest boars of the breed, Belle Isle King, Imperator, Defender, Waltz Top Colonel, Cherry Tip, Defenders Ohio Chief, Pals Success, Belle Isle Success, Fancy Masterpiece and Kentuckian.

25 Sows bred to Belle Isle King, the greatest son of Orion Cherry King. 25 bred to Belle Isle Success, Belle Isle Imperator and Orions Taxpayer, Jr.

The Greatest Offering of the Year to Take Place in Hopkinsville, Ky., Monday, March 4th, 1918.

J. U. CAMPBELL

Sale will be held at Dr. Isbell's Stable on 9th St., near L. & N. Depot.

Auctioneers—Col. H. L. Igleheart, Elizabethtown; Col. F. D. Hengst, Louisville. Fieldmen—Robt. J. Evans, American Association, Chicago; Homer Brayton, Durock Bulletin, Chicago, and Chas. V. Traux, Swine World, Chicago.

ROOF OF HOUSE IS DAMAGED

Residence Near Pembroke Narrowly Escaped Total Destruction Sunday.

The roof of the dwelling house of Mr. L. M. Gilliam, near Pembroke, was badly damaged by fire Sunday. Shortly after the family had returned from church the flames were discovered and it took quick work to prevent the total destruction of the build. The loss is covered by insurance.

When you want fire, tornado, life or bond insurance in the Oldest Strongest Companies see H. D. WALLACE office up stairs, over Anderson-Fowler Drug Store, Corner Ninth and Main.

WANTS TO FIGHT.

Perry Baker, Levee, Ky., volunteered ahead of his call to become a soldier to avenge the death of his brother, Roger, a Tuscania victim.

If you want a good Jersey cow, attend Atkins Brothers' sale here next Monday.

BIG SALE OF DUROC HOGS

Fifty Sows and Three Boars To Be Offered Here Next Wednesday.

Hog fanciers from all over the country are expected to attend the Duroc hog sale to be held here next Monday, March 4, by J. U. Campbell. This will be Mr. Campbell's second public sale of hogs from his fine herd which has attracted wide attention. His first sale was a great success and the sale next Monday, owing to the increasing demand for hogs of every kind and fine hogs in particular, is expected to far outclass the former one. At this sale Mr. Campbell will offer 50 bred sows and three boars. These hogs are sired by some of the best boars known, such as Belle Isle King, Imperator, Defender, Waltz Top Colonel, Cherry Tip, Defender's Ohio Chief, Pal's Success, Belle Isle Success, Fancy Masterpiece and Kentuckian.

The sows are all bred, 25 of them being bred to Belle Isle King, and 25 to Belle Isle Success, Belle Isle Im-

perator and Orion's Taxpayer, Jr.

The sale will be held at Dr. G. P. Isbell's stable on Ninth street, near the L. & N. depot.

Another Clay Murder.

Another mysterious murder has taken place at Clay, Ky. Frank C. Beadles, aged 25, a butcher at a mining camp, was shot Sunday night. Five negroes are under arrest.

A Pleasant Course.

Somebody says that the course in automobilizing which a Western college has inaugurated should be a pleasant course in fair weather. Yes, if it's co-educational.—Cleveland Plain Dealer.

TOOK DESPERATE CHANCE.

Duncan Robertson, aged 30, a New York slacker, after his wife's death, married his mother-in-law to escape draft. He was denied exemption and placed in class A.

Atkins Brothers will sell 30 head fine Jersey heifers here next Monday

HONOR FRIENDS OF FARMERS.

General price fixing on the agricultural products is not a part of the food administration and will not be attempted. Food administrator Hoover said in a statement designed to reassure the farmers who might be apprehensive that the government is going to fix maximum prices on all they have to sell.

Whalebone King.

A New Bedford man, with whom both Europe and America have to deal, is said to handle the entire whalebone supply of the world in his small store. And this man's corner in whalebone amounts to only 100,000 pounds.
